

T23 Offshore

The Willans T23 Offshore Harness is manufactured under the ISO 9001:2000 quality system. The harness is outstanding in that it fulfils the requirements of three separate European standards.

BS EN 813 (Sit Harness)
BS EN 358 (Work Positioning Systems)
BS EN 361 (Full Body Harness)

High and low suspension points, as well as work positioning attachments at waist level, make this a rugged and versatile tool for rope access applications.

Wide support webbing with built-in expanded neoprene padding makes extended periods of work aloft possible. Leg and shoulder straps ensure security and "D" rings are provided at waist level for carriage of tools.

It is equipped with snaphook and ring fastenings for ease of donning when wearing gloves.

Fibre identity polyester.

Triangular screw-gate fittings are included.
